INTRODUCTION

"Tea Statistics" published by the Statistics Branch of the Tea Board has already completed 10 years of useful existence and the present issue will be the eleventh one in the series. It is our earnest hope that it will be received with the same enthusiasm and cordiality as in the past by Economists, Research-workers as well as individuals and organisations interested in the study of the Tea Industry and Trade.

As before, this volume incorporates the latest statistical information relating to different aspects of the Tea Industry and Trade in India and abroad available at the time of going to press. Some of the figures are, therefore, necessarily incomplete or provisional.

The present issue contains 114 tables against 112 tables in the previous issue. There have been some additions and alterations in the present issue. Some tables in the India portion of previous issues have been omitted as these are not of much importance in the present context. Some tables have been reoriented according to present needs. On the other hand, 8 tables have been included as new features in the present issue. Five out of these 8 tables are in Part I (India) viz. Table No. I (vii) showing production of tea in India by different methods of manufacture during 1961 to 1963, Table No. I (xi) showing area, production and average yield per hectare in India during 1885 to 1964, Table No. 9 (d) showing weekly average prices of tea sold at Amritsar auction during 1964, Table No. 16(k) showing quantity and value of tea exported from India to different countries of the world grouped by regional panels during 1962 to 1964 and Table No. 27(b) showing labour employed (daily average) in Tea Industry in India by categories of labour during 1961 and 1962.

For the sake of comparability with international statistics, some essential tables relating to India have been given in British Units in Part II. Table No. 4 showing area, production and average yield per acre in India during 1885 to 1964 and Table No. 8 showing quantity and value of tea exported from India to different countries of the world by regional panels during 1962 to 1964 are also given as new features in Part II (India).

Table No. 21 (b) (iii) showing imports of tea into East European countries during 1960 to 1964 has also been included as a new feature in the International portion (Part III).

Comments and suggestions for improvement of this publication will be thankfully received and carefully examined.

Review of the Year 1964-65

The year 1964 has been significant for the Tea Industry in many respects. Production of tea reached an all-time record while exports during the financial year 1964-65 also showed significant improvement over the previous year.

Production : The outstanding feature of the year 1964 was the record crop produced by North Indian estates. For the first time since 1961, most of the tea districts enjoyed favourable growing conditions with adequate rainfall. The crop in North India for the year 1964 was 289.9 m. kg. as against 257.4 m. kg. during 1963. This shows an increase of 32.5 m. kg. over 1963.

Drought conditions prevailed during the early part of 1964 in South India where the crop was only 82.2 m. kg. in 1964 compared to the record crop of 89.0 m. kg. in 1963. There was thus a shortfall of 6.8 m. kg. in South Indian production. The total production of tea in India in 1964 was thus 372.1 m. kg. as against 346.4 m. kg. in 1963 showing an overall increase of 25.7 m. kg.

Export : In spite of record crop in North India, exports in 1964 were lower than in 1963 by 13.0 m. kg. valued at Rs. 7.5 crores. Total exports from India during 1964 were 210.5 m. kg. valued at Rs. 124.9 crores compared to 223.5 m. kg. valued at Rs. 132.4 crores in 1963. Exports in 1964 suffered because following two successive years of lower production and higher exports, there was very little tea available for export in the first few months of 1964. Exports had, however, been good since the commencement of the new season in June, 1964 and this is reflected in the higher exports during the financial year 1964-65 than during the financial year 1963-64, the corresponding figures for quantity and value being as follows :

Year	Quantity in m. kg.	Value in Rs. crores
1963-64	209.3	Rs. 123.2
1964-65	217.8	Rs. 128.2

The United Kingdom has been as usual the best customer for Indian tea. Her purchases totalled 125.6 m. kg. in 1964-65 as compared with 117.0 m. kg. in 1963-64. U.S.S.R. came second with purchases totalling 24.2 m. kg. as compared with 16.3 m. kg. in 1963-64 while the U.A.R. took third place with 14.4 m. kg. compared with 19.3 m. kg. during the previous year. U.S.A. took 9.6 m. kg. in 1964-65 as against 10.1 m. kg. in 1963-64.

Sales : The total quantity of leaf and dust teas sold at Calcutta auctions during 1964-65 season were 108.8 m. kg. and 56.3 m. kg. respectively against 95.7 m. kg. and 49.0 m. kg. in 1963-64 season. The quantity sold at Cochin auctions during 1964 was 43.8 m. kg. against 46.1 m. kg. sold during 1963. At London auctions, 75.3 m. kg. of North Indian teas and 11.4 m. kg. of South Indian teas were sold during 1964 against 73.2 m. kg. and 17.3 m. kg. respectively during the year 1963. The smaller quantity of South Indian tea sold through Cochin and London auctions in 1964 is a direct result of the lower production.

Prices : At Calcutta auctions, average auction price of leaf teas during 1964-65 season was lower by 21 paise per kg. while that for dust teas was lower by 5 paise compared to prices fetched during 1963-64 season. In Cochin, average prices of leaf and dust teas sold during 1964 have been higher by 10 paise and 17 paise per kg. respectively compared to 1963. In London, the average price of North Indian teas was lower by 2.38d per kg. while that for South Indian tea was higher by 5.55d per kg. compared to the average prices in 1963.

Duties : Export cess and Excise duty on loose and packet teas remained unchanged during the year under review. The refund of additional Excise duty on package tea also

remained in force as in the previous year. A provision for export of packaged tea under bond without paying the additional export duty of 40 p. per kg. was also made during the year. A novel feature of the Union Budget for 1965-66 is the grant of tax credit certificates on exports. It has been decided that the tax credit will be 2% of the value of exports of black teas in loose form and 5% of the value of exports of green teas as also of black teas in packets of upto 1 kg. It is hoped that these tax credits will enable the exporters to increase exports and earn larger amounts of foreign exchange for the country.

Certain consuming countries viz. EEC, EFTA, Canada, Australia and New Zealand etc. suspended/abolished or reduced their import duties on tea during 1964.

Internal Consumption : Internal consumption of tea in India rose steadily from 82.7 m. kg. in 1953-54 to 139.6 m. kg. in 1961-62. Owing to lower production and higher exports in 1962 and 1963, domestic consumption of tea was slightly lower at 135.7 m. kg. in 1962-63. There was again a recovery in 1963-64 when it reached the level of 140.0 m. kg.

Targets For 3rd and 4th Five-Year Plans : The targets for production and exports of tea originally fixed for the 3rd Five-Year Plan were 408.2 m. kg. (900 m. lbs.) and 276.7 m. kg. (610 m. lbs.) respectively.

A Working Group for fixing the targets of production and exports of tea for the 4th and 5th Five-Year Plans was appointed at the instance of the Planning Commission. Apart from fixing the targets for production and exports for the 4th and 5th Five-Year Plans, the Working Group also revised the production and export targets for the 3rd Five-Year Plan, the original targets being considered to be difficult of achievement in the light of the actual performance so far. The Working Group also suggested ways and means of achieving the proposed targets for production and exports for the 4th Five-Year Plan. The final report of the Working Group was submitted to the Government of India on 5th May, 1964. The targets for production and exports for the 3rd and 4th Five-Year Plans are shown below :

Production and export targets for the 3rd and 4th Five-Year Plan periods

I. Targets for the 3rd Five-Year Plan

	Original		*Revised*	
	m. kg.	*m. lbs.*	*m. kg.*	*m. lbs.*
Production	408.2	900	376.5	830
Export	276.7	610	240.4	530

II. Targets for the 4th Five-Year Plan

Production	453.6 m. kg. or 1000 m. lbs.
Export	294.8 to 303.9 m. kg. or 650 to 670 m. lbs.

Tea Finance Committee : The Government of India constituted a high-powered Committee in July 1964 under the Chairmanship of Shri V. V. Chari, Additional Secretary to the Ministry of Finance to examine the financial position of the Tea Industry and to recommend the measures of assistance required by the industry for achieving the envisaged increase in production and exports during the 4th Five-Year Plan. Some of the recommendations of the Tea Finance Committee have been accepted by the Government while others are still under examination.

World Supply and Absorption : According to the provisional estimates prepared by the International Tea Committee, total world supply of tea during 1964 was 787 m. kg. while total world absorption was 784 m. kg. thus leaving a nominal surplus of 3 m. kg.

Thus, total world supply and absorption are fairly balanced and there is no possibility of any serious imbalance arising in the near future.

The position of supply and absorption of tea in the world for 1963 and 1964 is given below :

(figures in million kg).

	1963	*1964*
Total supply	740	787
Total absorption	748	784

Ad Hoc Meeting on Tea organised by the F.A.O.

An ad hoc meeting was organised by the F.A.O. at Nuwara Eliya, Ceylon, in May, 1965 to discuss the present situation and future prospects of tea as a beverage. A Delegation consisting of the Chairman, the Director of Tea Development and the Statistician of the Tea Board represented India at this meeting. The papers circulated by the F.A.O. at the meeting brought out that consumption of tea in the world as a whole was increasing at a lower rate than in the past. Further, the rate of increase in consumption was expected to be much lower than the anticipated rate of increase in production. On this basis, the F.A.O. estimated that by 1970 the world may have a surplus of 74 to 140 m. kg. of tea. The F.A.O. and the Government of Ceylon were, therefore, of the view that a Tea Study Group should be set up under the auspices of the F.A.O. for keeping the tea situation under constant review as well as for harmonising the production policies of different tea-producing countries. The Indian Delegation, however, pointed out that the F.A.O.'s projection for consumption in 1970 was on the low side and did not take full account of the likely increase in consumption in the developing countries of Asia and Africa as well as the income and price elasticities of demand for tea in both high income and low income countries. Further, projection of consumption in 1970 should be made at least at the lower rate of increase in consumption prevailing during the latter half of the ten year period ending 1960-62. On this basis, estimated consumption in 1970 will be 1096 thousand metric tonnes. Thus, world supply and absorption of tea would continue to be in balance in 1970 even if the plans for increasing production in different tea-producing countries are fully realised. In the opinion of the Indian Delegation, therefore, there was no need of setting up a formal Study Group although there was no objection to having occasional meetings and exchange of views. The ad hoc meeting, therefore, unanimously rejected the proposal for setting up a formal Tea Study Group under the F.A.O. The meeting, however, recommended that another meeting to discuss the tea situation should be held after about 18 months. The meeting also recommended that there was considerable scope for improvement in the statistics of production and consumption maintained by the F.A.O. and that for achieving this purpose, a meeting of experts in tea statistics should be held as early as possible. The stand taken by the Indian Delegation thus received almost universal acceptance. The recommendations of the ad hoc meeting held at Nuwara Eliya, Ceylon, have since been approved by the Committee on Commodity Problems of the F.A.O. in its meeting held at Rome in June, 1965.

N.B. :—Production for the years 1953-'54 to 1958-'59 related to calendar year while those of 1959-'60 to 1963-'64 related to financial year.

Note : (I) Estimates of Internal consumption do not take into consideration variations in stocks held in retail channels. In other words, the estimates are based on the tacit assumption that stocks in retail channel remain more or less the same in any two consecutive years. In case there is any large variation in retail stocks as between two consecutive years, the accuracy of the estimate of consumption will be vitiated to that extent. However, such unusual variations are likely to smooth out over a period of about 3 years. A 3-year moving average of the original estimates arrived at will, therefore, afford more reliable estimates of consumption of tea in India.

II. New rates of duties effective from 1st March, 1964.

Under the Budget proposal for 1963-64, the export duty of 25 P. per kg. was abolished with effect from the 1st March, 1963. The system of refunding excise duty at the rate of 15 P. per kg. at the point of shipment, which had been introduced a year ago, was also withdrawn.

At the same time a surcharge of 20% on the existing excise duty was imposed. The rate of excise duty on package teas, however, remained unchanged at 40 P. per kg. and a rebate of the additional excise duty at 40 P. per kg. is also allowed on all package tea exported.

Excise Duty per kg.

Cesses-Replanting & Rehabilitation	4·00	,,	,,	,,
Medical Aid	0·15	,,	,,	,,
Propaganda	2·20	,,	,,	,,
Tea Research Institute	1·00	,,	,,	,,
Tea Control	0·15	,,	,,	,,
Total	42·50			

In addition, Ceylon has an "ad-valorem" Sales tax on teas fetching a price over Rs. 1·85 per lb. at Colombo and London auctions. The rate of taxation is 50% of the excess over Rs. 1·85 subject to maximum of 70 cents a pound. Teas selling below Rs. 1·85 are not required to pay this sales tax.

2. **Pakistan** : Excies duty remained unchanged throughout the year 1963 at 0·62 paisa per lb. Export duty which was reduced from 0·25 paisa to 0·15 paisa per pound on 13th June, 1962 has now been completely abolished in 1963. Tea Cess remained unchanged at Rs. 2·00 per 100 pounds.

3. **Africa** : There was no charge from last year on a cess of 2 shillings per 100 pounds in respect to Kenya and Uganda Producers but Tanganyika now pays 2 cents per pound.

Export duty is not charged on tea exported from Kenya, Tanganyika teas are now subject to a export tax at 10 cents per lb net weight and prorata for every part thereof with effect from 28th June, 1963. (This replaces previous export duty at 3% ad-valorem). In addition to the present export tax of 10 East African cents per lb., the cess levied under the produce cess Act of 1963 has been increased from one cent per lb. to a rate of 1 per cent ad-valorem on all teas sold in, or exported from the different district on and after April 2,1965.

Uganda has introduced an export tax on tea of 25 cents per lb. This duty will be imposed on teas at the time of thier leaving the Uganda territory and will be payable by producers or whoever the owner of the tea might be at this time. (This tax was, however, withdrawn following representation from the industry in 1964.)

4. **Indonesia** : Export duty remained at 10% throughout 1962 and continued upto 26th May, 1963. It has been abolished with effect from 27th May, 1963.

28. Taxes on Tea in EFTA, EEC and other countries.

(A) EFTA (European Free Trade Association)

1. U. K.	...	There is no import duty on teas of Commonwealth origin. Teas from other couutries had to pay an import duty of 2d per lb. upto 1963 but U.K. has suspended this import duty with effect from 1st January, 1964. There is no other tax on tea in U.K.
2. Norway	...	Until 31. 12. 63 there was an import duty of 2·00 N. Kroner or Rs. 1·33 per kg of tea imported into Norway. This duty was suspended with effect from 1.1.64. There is also a turn over tax of 10% advalorem—about 30 P per lb. for teas with a c.i.f. value of Rs. 3·00 per lb.—which is presumably still in force.
3. Sweden	...	The import duty on tea was one kroner or Re. 0·90 per kg up to 31st December, 1963. The Swedish Government has abolished duty on tea in bulk as well as Packet tea with effect from 1.1.64. In Sweden there is now a duty of 10% ad valorem on instant tea only. The duty on coffee has also been abolished from 1.1.64.
4. Denmark	...	There was an import duty of 270 ore or Rs. 1.86 per kg upto 31.12.63. This duty has, however, been suspended with effect from 1.1.64.
5. Switzerland	...	Until 31.12.63 there was an import duty of 1 franc or Rs. 1·09 per kg for tea in packages of over 5 kg and 1·50 francs or Rs. 1·63 per kg on packages under 5 kg. The Swiss Government has abolished completely all Customs duties on tea i.e. both loose and packet teas with effect from 1st January, 1964.
6. Austria	...	There was a Customs duty of A Sch. 1,300 per 100 kg or Rs. 2·38 per kg. and if tea is packed in 1 kg. packages or less there is an additional tax of 30 per cent of the duty or 16·90A. Sch per kg, Austria has abolished the import duty on tea from May 15,1964. The duty on packages tea has also been reduced from 16·90 shillings to 10 shillings per kg from May 15th 1964.
7. Protugal	...	Import duty—Maximum Tariff is 72,00 Escudos per kg or Rs. 11·86 per kg or Rs. 5·38 per lb. and the minimum Tariff is 36·00 Escudes per kg or Rs. 5·93 per kg. Maximum tariff is applicable to conntries with which there is no trade agreement or any commercial treaty. Mimimum Tarlff is applicable to goods originating in countries to which such regime is granted by a Commercial treaty or by a Statutory provision. There is also a preferential duty on tea at 22·5% for Colonial territories.

(B) EEC (European Economic Countries)

SUSPENSION OF IMPORT DUTY ON TEA IN EEC COUNTRIES WITH EFFECT FROM 1.1.64

The Council of Ministers of the Europeon Economic Community decided at their meeting held on 30.7.63 to suspend for two years the Common external tariff on tea from the provisional rate of 18% ad-valorem to Zero on bulk teas and to reduce the duty on packet teas i.e. packets containing 3 kg or less from 23% to 5% ad-valorem with effect from 1st January, 1964. All the member states in EEC have implemented this decision with effect from 1st January, 1964.

In spite of the suspension of the duty on loose tea by EEC from 1.1.64, there are still high imposts of internal taxes on tea in some of the member states as shown below :—
