

INTRODUCTION

With the issue of the present volume of "Tea Statistics" published by the Statistics Branch of the Tea Board of India, it steps into the third year of its existence and we hope that economists and research workers interested in the study of the Tea Industry as well as persons and organizations directly and actively connected with Tea Industry and trade will find it more interesting and informative than its predecessors. As before, this volume incorporates the latest statistical information relating to different aspects of the Tea Industry and Trade available at the time of going to Press. Some of the figures are, therefore, necessarily incomplete or provisional. Figures have in most cases been taken from sources which are generally regarded as authentic although in some cases less dependable sources have also been resorted to because information from the strictly authentic sources were not readily available. It is, however, hoped that the errors involved in the figures due to this or any other limitation are not of a significant nature and would not vitiate, to any considerable extent, the picture brought out by the figures that have been obtained and incorporated in the publication. Nevertheless, suitable indications have been given, as far as possible, in respect of such figures that have to be treated as provisional.

The object of this publication remains, as before, not to be a comprehensive volume on the Tea Industry all over the world in all its aspects but to present within a relatively small compass detailed information regarding various aspects of the Indian Tea Industry and Trade together with some essential statistics relating to Tea in respect of the major producing and consuming countries of the world so as to enable a proper assessment of the position and the prospects of the Indian Tea Industry and Trade in the context of the international situation as may come to prevail from time to time.

The present issue includes a larger number of tables than the previous two issues. Part I (India) which contained 36 tables in the last issue now contains 54 tables. The additional tables incorporated are table No. 1 (ii) giving district-wise production of North and South Indian teas, table No. 1 (iv) giving the number of estates, acreages and production in different tea-growing districts according to sizes of estates, table Nos. 16 & 17 giving quantities and values of Indian exports to leading markets from 1933-34 to 1955-56, table No. 25 giving inter-state movement of tea by rail and river, table No. 30 giving minimum rates of daily wages for tea plantation workers in different States and table Nos. 31 to 37 giving statistics relating to capital employed, profits earned, gross sales, net worth, etc. of tea companies in comparison with companies engaged in other industries. Of these, table No. 31 gives statistics relating to production, capital employed, profits, dividends, etc. in respect of selected Tea Companies in North and South India. Table Nos. 32 to 36 owe their origin to a recent enquiry conducted by the Reserve Bank of India into the finances and working of Joint Stock Companies in India including Tea Companies during the five years 1950-54. The figures in respect of Tea Companies shown in the above tables are based on an analysis of the balance sheets of 113 Companies for the five years. The next table giving index numbers of industrial profits for 1940-54 owes its origin to the Ministry of Finance, Government of India.

The slab system of export duties
effective from 1st March, 1955.

Price per lb.	Duty per lb.
Upto Rs. 2/8	4 as.
Rs. 2/8 to Rs. 3/4	6 as.
Rs. 3/4 to Rs. 4/0	8 as.
Rs. 4/0 to Rs. 4/12	10 as.
Above Rs. 4/12	12 as.

N. B.:—In the Finance Act of 1956-57, the slabs Rs. 2/8 to Rs. 3/4 and Rs. 3/4 to Rs. 4/- have been amalgamated with the result that the duty applicable to teas whose price falls in the revised slab of Rs. 2/8 to Rs. 4/- would be 6 annas only. This revision took effect from 1st April, 1956.

* 1 anna for internal loose tea and 4 annas for packet tea upto 60 lbs packet with effect from 15-4-53. Excise duties collected on teas which are eventually exported out of India are credited to customs.

** From 25th Nov. '54 cess on tea has been increased from Rs. 2/- to Rs. 4/- per 100 lbs. of tea.
