

INTRODUCTION

This is the twentysecond issue of Tea Statistics. Statistical information relating to various aspects of the industry and trade in India as well as the world as a whole available at the time of going to press have been incorporated in this issue. Some of the figures, are, however, unavoidably of a provisional nature.

Research workers, Economists, Statisticians, as well as individuals and institutions—both in India and abroad—have in the past found this publication very useful and have provided us the encouragement for expanding the scope and coverage of the publication and make it as comprehensive as possible so as to enable a scientific and systematic study of the multifarious problems relating to production, export and marketing of tea. It is our earnest hope that the present issue of the publication will carry this objective a step further.

Review of the Year 1975-76

The International Scene

If the year 1974 was the dawn of an era of future hopes for Indian tea industry, the year 1975 brightened such hopes and consolidated the achievements of the previous year. The substantial price increase obtained in 1974 was more than maintained in the year under review. The prices of 'all teas' in London in 1975 increased by 4% from 60 pence per kg in 1974 to 62.4 pence per kg. The increases at Calcutta and Cochin were to the extent of 5% and 14% respectively. At Colombo, however, the increase was only 3%, perhaps because of the substantially large quantity of 'common teas' produced and shipped in anticipation of nationalisation. It is noteworthy that all these auction centres handled larger quantities in 1975-6 m kgs. at London, 6 m kgs at Calcutta, 4 m kgs at Cochin and as much as 15 m kgs in Colombo. Easier cash flow position resulting from the buoyancy in sales out-turn during preceding couple of years must have had its impact on the decision of producers.

With the re-opening of the Suez Canal in June 1975, the transit period to London was considerably reduced (by about 12 days) This had its impact on inventories. Stocks at London, which were substantially high till the middle of 1975, are brought down in the latter part, resulting in better prices in London auctions. Blenders kept much lower inventories because of tight control by the 'accountants'.

It is estimated that world production in 1975 was around 1,500 m kgs compared to 1458 m kgs in 1974. The increase in crop in 1973-75 (average) was only 2% compared to 3.1% in 1972-74 and 3.3% in 1971-73. This 'levelling off' in the supply position has, in fact, been helpful in maintaining the price level. Production in India during 1975 declined by 2 m kgs due to drought in North India. Bangladesh (3 m kgs), Uganda (4 m kgs), and Mozambique (5 m kgs) also showed a decline. Sri Lanka (10 m kgs) Kenya (3 m kgs) and Tanzania (1 m kgs) however, showed improvement in their production.

Total world exports in 1975 are likely to be apparently higher by about 22 m kgs. This is mainly due to increase in Sri Lanka's exports by nearly 27 m kgs over the abnormally lower exports of 185 m kgs in 1974. India (8 m kgs) Bangladesh (3 m kgs), and Kenya (3 m kgs) also showed an increase. Exports from Indonesia (4 m kgs) and Mozambique (5 m kgs) showed a decline.

Besides the re-opening of the Suez Canal, a major development in the history of the world tea industry in 1975 was the take-over of all public plantation companies by Sri Lanka Government with effect from the latter part of the year. The newly set up Sri Lanka Tea Board was to take over the functions of the Tea Research Institute, Ceylon. Tea Propaganda Board, Tea Controller and the Commissioner of tea Exports from 1st January, 1976. The year also saw the entry of the Peoples' Republic of China in the Colombo auctions after almost a decade, purchasing about 2.3 m kgs of tea. Another noteworthy event was the de-linking of the rupee from the Pound Sterling by India from Sept. 1975. The slumping of the £ in the international exchange market had necessitated periodic upvaluation of the Rupee against the £.

F.A.O. Meetings

The Seven Nation Working Party set up by the Sub Group of Exporters of the F.A.O. Inter-Governmental group on Tea met in April 1975 to examine the important aspects of a multi dimensional international agreement for tea. The meeting was, however, inconclusive.

The Indian Scene

The year 1975 was generally a good year for the tea industry in India except for the marginal decline in crop caused by drought in North India in the earlier part of the season. An increase of 7 m kgs in the South Indian crop helped to reduce the overall decline in the country's crop to only about 2 m kgs. Total production in 1975 was about 487 m kgs compared to 489 m kgs last year. This fell short the target fixed for the year by 9 m kgs.

The financial year 1975-76 set another record for export earnings. Exports during the year were 211 m kgs valued at about Rs. 238 crores with a unit value of Rs. 11.27 per kg. In addition to this, export earnings from instant tea were about Rs. 2 crores. Though the quantum was 14 m kgs lower than the previous year, the earnings were Rs. 15 crores higher due to an appreciation in the unit price by Rs. 1.34 per kg. Exports were facilitated by the smooth functioning of the port as well as speedy movements of consignments by rail, road, and ship. During the year, total export earnings from non traditional and added-value-items viz. packet teas, tea bags and instant tea, showed a substantial increase and stood at Rs. 19 crores as compared to Rs. 9.5 crores in the previous year. The overall increase in the export earnings was due partly to higher prices obtained for packet teas (by Rs. 2.39 per kg) tea bags (by Rs. 12.14 per kg) and instant tea (by Rs. 6.53 per kg).

Indian teas also fetched higher prices at auctions both in India and London. The overall increase was 53 paise per kg (5%) at Calcutta, Rs. 1.18 per kg (14%) at Cochin and 3 pence (5%) at London. It is also worth-mentioning here that the quantities of Indian teas sold in all these auctions were also higher by about 5 m kgs each.

The details regarding production, internal consumption, exports, sales at auctions, etc. are given below :

Production :—After five successive record years, production in 1975 declined marginally because of drought in North India in the early part of the season and was, therefore, unable to achieve the target of 496 m kgs. North Indian production declined by 9.23 m kgs but this was offset by a substantial improvement in the South Indian crop by 6.89 m kgs. The All India production stood at 487.14 m kgs which was only 2.34 m kgs lower than the previous year. Production figures of the last three years are given below :—

		<i>(Figures in million kgs.)</i>		
		1973	1974	1975
North India	—	368.16	389.81	380.58
South India		103.79	99.67	106.56
TOTAL	—	471.95	489.48	487.14

Internal Consumption :—India is the biggest consumer of tea in the world having even surpassed the UK during the last few years. More than 50% of the production is retained in the country for domestic consumption which has been increasing at the rate of 5% to 6% a year in recent times.

The table below indicates the consumption in India during the last five years:—

<i>Year</i>	<i>Quantity (m. kgs.)</i>
1970-71	213.0
1971-72	224.7
1972-73	236.9
1973-74	248.0
1974-75	260.0*

*Provisional.

Exports:—Exports during the financial year 1975-76 were very satisfactory. Though in terms of quantity, exports were 14 m kgs lower than the previous year, the total earnings were about Rs 15 crores higher. This was made possible by a substantial increase in the unit price to the extent of Rs. 1.34 per kg. Total export earnings including that of instant tea reached the targeted figure of Rs. 240 crores. The year under review was the second successive year to achieve record export earnings. The comparative position is given below:—

<i>Period</i>	<i>Qty. (m. kgs.)</i>	<i>Value (Rs. crores)</i>	<i>Unit Value (Rs./Kg.)</i>
April '75 to March '76	211.41	238.28	11.27
April '74 to March '75	225.06	223.54	9.93
	- 13.65	+ 14.74	+ 1.34

The export performance of tea in the major markets during the year 1975-76 is briefly given in the following paragraphs.

U.K. and Netherlands :

UK continued to be the major market for Indian tea and about 30% of our exports were directed to this country. Since 1972, large quantities of teas are shipped to Netherlands for eventual re-exports to UK. Our normal exports to UK and Netherlands are about 65 m kgs annually but in 1974-75 it was abnormally high at 88 m kgs due to lesser availability of teas from countries like Sri Lanka. During the year under review, exports to UK and Netherlands were 63 m kgs near the normal average figure.

Ireland

Ireland's total imports of tea are about 12 m kgs a year. Our exports in 1975-76 were lower at 4 m kgs compared to the normal exports of 5 m kgs.

U.S.S.R. :

USSR a deficit tea producer, purchased from India a record quantity of 59 m kgs in 1975-76 as compared to 47 m kgs last year. In terms of export earnings USSR emerged as the biggest market for our teas in 1975-76 surpassing the UK.

Poland

Poland's purchase from India jumped to a record level of 9 m kgs in 1974-75 from 5 m kgs in the previous year. During 1975-76 exports further improved to 9.6 m kgs.

Others in East Europe :

Exports to other East European countries rose to about 2.5 m kgs during the year under review from 1.9 m kgs in 1974-75.

U.S.A.

U.S.A. is the second largest buyer of tea in the world importing around 80 m kgs a year. Our exports to this country is of the order of 7 m kgs. During the year she purchased about 6.1 m kgs.

A.R.E. :

Exports to A.R.E. are governed under bilateral agreement, but they are scheduled to shift to multi lateral by 1977. A.R.E. purchased about 11.3 m kgs against 11.7 m kgs in the previous year.

Sudan :

Sudan is another country purchasing teas from India under bilateral trade. India is the major supplier of tea to this country. Exports to this country were, however, lower by about 2.7 m kgs.

Iran :

Iran, like U.S.S.R, is another deficit tea producing country and has a long and popular tradition of tea drinking. India has a share of about 40% in this market. Iran purchases about 4 m kgs a year from India. In 1974-75, our exports were abnormally high at 8.2 m kgs. During the year under review exports were about 5.4 m kgs.

Afghanistan :

Afghanistan usually takes about 10 m kgs annually from India, but this year she purchased as much as 15 m kgs thereby becoming the third largest purchaser of our teas. Afghanistan is the major market for Indian green tea.

Iraq :

Iraq is the second biggest tea importing country in Asia after Pakistan. Sri Lanka followed by India are the major suppliers. Exports to Iraq increased by about 1.52 m kgs. during the year under review.

Others :

Saudi Arabia, Qatar, U.A.E. and New Zealand were some of the other markets which took larger quantities of tea from India during 1975-76. In the case of West Germany, Canada, Kuwait, Jordan, Japan and Australia exports slightly declined.

Bilateral Trade :

Exports under Bi-lateral trade agreement continued to play its important role. In recent years, however, certain countries previously under bi-lateral trade agreements have switched over to free trade. Yugoslavia had switched over to multi-lateral since 1973. A.R.E. and Sudan are likely to do so by 1977. In respect of Iraq, though there is trade agreement, the trade is in convertible currency. During 1975, the share of exports to the countries under bi-lateral agreement increased to 49% compared to 40% in 1974 and 45% in 1973. This is due to substantially higher purchases by U.S.S.R. and Poland. The details are given below:—

Countries	<i>(Quantity in million kgs.)</i>		
	1973	1974	1975
U.S.S.R.	37.32	42.11	56.47
Other East Europe*	7.44	7.85	13.49
Iraq	7.19	3.38	6.71
A.R.E.	11.70	12.40	11.35
Sudan	12.18	8.36	5.89
Afghanistan	8.59	11.15	13.82

Packet teas, tea bags, Instant tea and Green tea

The year under review was the record year of export earnings for all the three non-traditional items, viz. packet tea, tea bags and instant tea. The total export earnings from these items substantially improved to Rs. 19 crores from Rs. 9.5 crores last year, resulting from a considerable improvement in the unit prices as also due to an increase in the volume of exports.

Exports of packet teas increased by about 4 m kg in quantity and about Rs. 8 crores in value. The unit price had also increased by Rs. 3.11 per kg. The WANA region continued to be the major market for our packet teas and absorbed about 80% of our export of packet teas.

Export earnings from tea bags more than doubled to Rs. 59 lakhs from Rs. 28 lakhs in the previous year. The quantum of exports increased by 49 thousand kgs and there was also a substantial increase of Rs. 12.14 per kg in the unit value. Tea bags were mainly exported to countries in the East Europe and to some in WANA region.

U.S.A. and U.K. continued to be the main markets for our instant teas. Export earnings from instant tea had more than doubled from Rs. 0.86 crores to Rs. 1.92 crores. In volume, the increase was of the order of 223 thousand kgs while unit price had also increased by about Rs. 7.00 per kg.

Exports of Green tea declined by a million kgs, but earnings remained at the same level of last year. Afghanisatan continued to be the main buyer of Green tea from India, Small quantities of Green teas were exported to non-traditional markets like Japan and USA also.

A great potential market for Green teas exists in Japan and Morocco and to a certain extent in countries like U.S.A., Canada, Algeria and Libya. But India's entry to these markets depends on manufacture of the type of Green tea required by the consumers in these countries.

The following table shows the figures of exports of these items during the last three years:—

Year	Packet tea		Tea Bags		Instant tea		Green tea	
	Qty.	Value	Qty.	Value	Qty.	Value	Qty.	Value
1973-74	4.74	5.02	0.14	0.36	0.30	0.92	4.02	2.83

Sales at auctions

About 65% of the total production of tea in India is sold through auctions at Calcutta, Gauhati, Amritsar, Cochin, Coonoor and London. A table showing the disposal pattern during the last five years is given below :—

Year	Percentage of production sold through Auctions			Percentage of production sold against private sales and forward contracts	Percentage of production sold ex-garden

1971	56.8	9.8	66.6	4.0	29.4
1972	59.2	10.0	69.2	5.4	25.4
1973	55.4	7.6	63.0	4.7	32.3
1974	55.6	8.4	64.0	6.1	29.9
1975	58.7	8.2	66.9	4.1	29.0

* based on quantity sent for auction

During the 1975-76 season, *Calcutta* handled 174 m kgs against 169 m kgs in the previous year. The average price increased by 53 paise per kg (5%) to Rs. 11.52 per kg during the year. Of the different methods of manufacture CTC teas have gained by 11% while Orthodox tea (including Darjeeling) declined by 3% in prices. In 1974-75, however, Orthodox teas had gained by 63% while CTC improved only by 39%. The good price fetched for Orthodox teas in 1974-75 had perhaps led to the increased production of these teas and decline in the sales of CTCs. Sale of Orthodox teas during 1975-76 had increased by 14 m kgs while C.T.C. teas had declined by 8 m kgs.

The table below gives the quantity and price of leaf and dust teas sold at *Calcutta* :—

Calcutta auction

Year	Quantity : M. Kgs Price : Rs/Kg.					
	LEAF		DUST		TOTAL	
	Qty.	Price	Qty.	Price	Qty.	Price
1974-75	119.25	11.67	50.01	9.37	169.26	10.99
1975-76	128.42	11.94	46.56	10.37	174.98	11.52

Cochin handled about 67 m kgs in 1975 against 63 m kgs in 1974. The average price improved by Rs. 1.18 per kg. (14%). Here again, C.T.Cs gained by 17% while Orthodox improved by 12%. In *Cochin* also Orthodox teas gained more (45%) than C.T.C. (38%) in the year 1974 though the difference was not as pronounced as in *Calcutta*. Sales of both Orthodox and C.T.C. teas increased by about 2 m kgs each in 1975.

The table below gives the quantity and prices of leaf and dust teas sold at *Cochin* auctions :

Cochin auctions

Year	Quantity : M. Kgs Price : Rs/Kg					
	LEAF		DUST		TOTAL	
	Qty.	Price	Qty.	Price	Qty.	Price
1974	37.04	8.71	25.74	8.25	62.78	8.53
1975	38.95	9.88	28.25	9.48	67.20	9.71

Sales at *Gauhati* increased from 26.63 m kgs in 1974-75 to 28.31 m kgs. in 1975-76. The average price increased considerably from Rs. 8.89 to Rs. 9.84 per kg.

At *Coonoor* auctions, 15.81 m kgs of teas were sold in 1975 against 12.93 m kgs the previous year. Prices increased from Rs. 7.55 per kg to Rs. 8.26 per kg.

At *Amritsar* auctions, 0.59 m kgs, were sold during 1975-76 against 0.56 m kgs the previous year. Average price improved from Rs. 4.19 per kg to Rs. 5.66 per kg.

London continued to be the major international centre for auction of teas outside the exporting countries. Sales at London increased by 6.9 m kgs and stood at 98.70 m kgs. The average price of 'all teas' also improved by 2.5 pence per kg. Sales of Indian teas increased by 5.95 m kgs. and the average price also improved by 3 pence per kg. As in 1974, Kenya secured the highest average price (65.83 pence per kg.)

The following table gives the relevant figures :—

Direct exprt

The total quantity of tea exported direct to U.K. for London auction as well as against private sales and forward contracts was about 49.19 m kgs compared to 50 m kgs in 1974. Break down of figures under direct exports of tea from India to UK during 1973 to 1975 is indicated in the table below :

DIRECT EXPORTS

	For London Auctions			Against private sales forward contract			(Figures in Million Kgs) Total		
	1973	1974	1975	1973	1974	1975	1973	1974	1975

DUTIES AND TAXES

The cess on tea was increased from 4 paise per kg to 6 paise per kg with effect from 27th November, 1975.

Changes introduced in the excise duties are given below :—

<i>Zones</i>	<i>Excise Duty (Rs/kg)</i>	
	<i>Prior to 9.4.76</i>	<i>W.e.f. 9.4.76</i>
I	0.40	0.40
II	0.60	0.60
III	1.40	1.25
IV	1.10	1.10
V	1.30	1.30

The ceiling on rebate was increased from Re. 0.85 per kg to Re. 1.00 per kg. The basic f.a.s. price above which the rebate will be granted was also increased by Rs. 1.25 per kg. in respect of outright exports and Rs. 1.30 in respect of consignment teas.

Total—Total apparent consumption (annual average, in million Kg.).

P.hd.—Apparent consumption per head of total population in Kg.

N.A.—Not available.

Note :—(i) This table includes all countries having a total apparent consumption exceeding 1.00 million Kg. a year except China, Formosa, Vietnam, the Arabian and Persian Gulf States for which adequate consumption and/or population figures are not available.

(ii) All figures comprise both imported and (where applicable) locally produced tea.

(iii) Consumption per head is calculated on the total population as at the middle of each period, and does not take into account different composition by age and race. No allowance is made for consumption by visitors from other countries.

* Years beginning 1st April (for Iran, 21st/22nd March).

(a) Including the Channel Islands.

(b) Including the respective sectors of Berlin.

(c) Including South-West Africa, Lesotho, Botswana and Swaziland throughout. Figures exclude local production, figures not available.
