Introduction

Tea statistics 1986-87 is the thirtythird in the series. Statistics relating to various aspects of the tea industry and trade in India and abroad, available at the time of going to the press are incorporated in this issue. Estimated figures for the complete year 1987 wherever available, are also incorporated in this issue so to make this publication a ready source of reference. Some of the figures are, however, unavoidably of a provisional nature.

All these years, this publication has proved to be a useful handbook to the research workers, economists, statisticians as well as individuals and institutions for a systematic and scientific study of various problems faced by the tea industry and trade. Every endeavour has been made to make the present issue of the publication to meet this objective.

I am happy to place on record my heartfelt thanks to the staff members of the Statistics Division in the preparation and publication of this issue.

REVIEW OF THE YEAR 1986-1987

The world economic growth in 1986 was marginally lower than the level of previous year. Slowdowns in Japan and in the oil exporting countries had an effect on the accelerating growth of Europe and the developing countries of Asia. Inflation declined in the face of monetary restraint in many countries. In the perspective of such world economy, India's overall economic performance was highly encouraging. The rate of industrial growth increased and despite three successive weak monsoons, the agricultural situation remained more or less comfortable. Inflation in India was also under control.

However, for world tea industry, the year 1986-87 was not as favourable as the previous years. Lower crop output by India, Sri Lanka, Bangladesh, Indonesia, Kenya and USSR resulted in decline in world tea production during 1986 inspite of remarkable steady growth in tea production of China and Turkey. Imports of tea in oil producing countries did not show any remarkable improvements. However, world net import of tea during 1986 increased due to considerable increase in tea import in the developed countries like U. K., U. S. A., Canada and Japan. Again world-wide shortage of tea could not appreciably improve the world tea prices during 1986. In fact, the price depression which began in 1985 continued to persist in 1986 also except towards the end of the season. The decline in tea prices in producing countries like Sri Lanka, Indonesia, Malawi ranged between 17% to 21% while the level of improvement in tea prices was only between 0.47% to 8% in other producing countries like India, Bangladesh and Kenya. Not only that the overall prices at London auction also witnessed a considerable decline of 17%. The possible reasons of strange and erratic behaviour of tea prices in the context of such supply demand equation is a matter of great concern of all tea interest in the world. However Total world exports Showed an improvement by 2.31% during 1986. In the context of unremunerative price realisation and declining trend of tea export, Government of different major tea producing exporting countries had to resort to certain concerted effort like effective implementation of minimum standard of export i.e. J.S.O. standard 3120 for achieving stable and remunerative price for their teas. These producing exporting countries also adopted different promotional measures coupled with fiscal concessions in order to earn more foreign exchange by way of tea exports.

1.1 *World Production* :

As already mentioned the world tea production declined in 1986 by 0.75%. This was mainly due to decline in tea production in India, Sri Lanka, Bangladesh, Indonesia, Kenya and USSR. However, China and Turkey was able to maintain the steady growth in their crop output. Apart from climatic condition, civil unrest in Sri Lanka affected the tea crop of 1986. The tea production were also marginally lower in case of Malawi, Tanzania and other African countries.

1.2 *World Exports* :

All though there was a Lower crop output, the world exports of tea increased to the extent of 2.3% during 1986. Mainly due to the increase in exports in respect of China by 26%. Exports from Banglapesh and Kenya declined by about 8%. In contrast to the declaning trend in production, the export from Sri Lanka improved by nearly 10 m. kgs. during 1986. The production and export of tea from major producing countries are shown below :-

1.3. *World Imports* :

Tea Imports into the oil exporting countries of WANA region did not show any sign of remarkable improvement during 1986. But, in view of economic growth in developed countries as also in the context of exhausion of past stocks of tea, tea imports into U. K., Canada and USA improved remarbably during 1986. This consequently leads to the improvement of world tea imports by more than 2.87% imports of decline in tea imports by the countries of West Asia and North Africa. However, tea imports in producidg importing countries like Japan and USSR also increased considerably during 1986. The regionwise net import of tea are shown below :-

1.4 *World Tea Prices* :

As already mentioned the price depression which began in 1985 continued in 1986 also while tea price in the producing countries like India, Bangladesh, Kenya improved marginally, remarkable decline in tea prices in other tea producing countries like Sri Lanka, Indonesia and Malawi during 1986 over another depressed year was a matter of great concern. Such strange and erratic behaviour of tea price could not be explained by the supply-demand equation prevailed during 1986.

The tea prices at all auction centres of the world during 1986 compared to 1984 is illustrated below :—

1.5 *International Tea Agreement* :

A meeting of the Inter-Governmental group on tea was held in Rome in May 1987. This meeting of tea interests had made a great job of finding out the real cause of the erratic movement of tea prices.

1.6. *Indian Tea Economy—Salient Features* :

PRODUCTION : After achieving the record level during 1985, the tea production in India declined by 35 million kgs, during 1986 due to adverse agroclimatic dontion. While the decline in South India is marginal (2.4 million kgs.) the North Indian crop output declined by nearly 33 m. kgs. during 1986.

1.7. *Marketing of Crop—Indian Auction* :

The percentage of sales of North Indian tea in Indian auction was slightly lower during 1986 than that of 1985 inspite of prevalence of the provision obligatory sales under Tea Marketing Control Order. However, the percentage of sales of South Indian teas in Indian auction during 1986 was little above the level of 1985 which was again significantly above the level of percentage of sales ot North Indian crop.

1.8. *Foreign Auction* :

LONDON : In contrast to the sale of Indian tea through Indian auction, the shipment of tea for London auction imporved marginally during 1986. The improvement was mostly due to improvement of North Indian teas.

1.9. *Singapore Auction* :

Like previous year, the shipment of tea from India for sale at Singapore auction was also negligible during 1986.

1.10. Ex-garden Sale :

Ex-garden sale within the country during 1986 was 17.87% against 17.84% of the previous year. The overall pictures of primary sales of Indian tea by the different channels is shown below :-

(Figs. in M. kgs.)

1.11. *Prices of Tea* :

As already mentioned, the declining trend of tea prices at Indian auction which began in 1985 continued to persist in the begnining of 1986 also. However towards the latter half of 1986, the prices of both North Indian tea and South Indian tea began to show a sign of improvement. Inspite of such improvement, the annual average prices during 1986 was lower by 13% at Cochin auction, 8% at Coimbatore auction and 16% at Amritsar auction. On the contrarery the annual average price of tea improved by only 1% at Calcutta, 6% at Guwahati, 11% at Siliguri and nearly 1% at Coonoor. Thus, the overall prices of Indian tea at Indian auction during 1986 improved marginally only by 0.4% against the remarkable decline of 28% at London auction. Marginal improvement in the shipment of Indian tea for sales at London auction in the context of such remarkable price decline for Indian teas as well as all teas was really note-worthy. The quantum of sales and prices faced by tea in the Indian auctions during 1985 and 1986 were already indicated in Para-1.4.

1.12. *Exports* :

Calendar year exports of tea from India during 1986 stood at the level of 203.15 m. kgs. which were lower by 10.87 m. kgs than the exports of 1985. Unit export price of Indian tea also declined by Rs. 3.90 per kg. and as a consequence of such decline, the overall export earnings declined in 1986 by nearly Rs. 114.45 crores and stood at the level of 580.85 crores.

1.13. *Exports—Financial Year* :

During the financial year 1986-87, exports reached a level of 196.23 m. kgs. This was lower by 18 m. kgs. compared to the level of exports in the previous year. The exports of tea from India during last five calendar years as well as financial years are given below :

1.14. *Direction of Exports* :

BILATERAL COUNTRIES : India remain under bilateral agreement with only five countries in East Europe namely USSR, Poland, Czechklovakia, GDR and Rumania during 1986. Iraq also remain under bilateral agreement though the payment was in convertable currency. India's trade with bilateral countries occupied the important position in the map of Indian tea exports as would be evident from the following table (Table-F) :-

Exports To :

(in M. Kgs.)

	1982	1983	1984	1985	1986
A. Countries under Bi-Lateral Trade Agreement	79	83	94	114	108
	(41.58)	(42.31)	(43.32)	(53.27)	(53.20)
B. Countries Other than Bi-Lateral Group	111	120	123	100	95
TOTAL—	190	208	217	214	203

Note : Figures in bracket indicate percentage to total.

U. S. S. R. emerged as a largest Indian tea buyer although there was a decline in Indian tea exports to all the bilateral countries during 1986.

1.15. *Other Countries* :

In recent years, there had been a change in the direction of Indian tea exports from traditional market of U. K. and West Euroupe to the countries in WANA region and also to USSR. Indian tea also facing steep competition from other exporting countries namely Sri Lanka, China, Indonesia, Kenya and Malawi. Due to lower cost of production, Sri Lanka and Kenya could be able to export tea at a much lower price compared to Indian tea in the world tea market.

A notable feature during the year 1986-87 was the improvement in tea exports to U. K., West Germany, Neatherland, Irelands, USA and ARE. Exports of Indian tea substantally declined during 1986-87 to the countries of Iran and Iraq. Exports also marginally declined to the countries like Canada, Afganistan, Pakistan, Australia etc. The position of exports of Indian tea to different directions is indicated below :—

Countries	Quantity (M. Kgs.)			Unit Price (Rs. Kg.)		
	1984-85	1985-86	1986-87	1984-85	1985-86	1986-87

TOTAL	217.40	214.23	196.23	35.40	30.25	29.53

1.16. *Export of value Added Teas* :

The exports of value-added teas namely packet tea and tea bags declined substantially during 1986-87 while improvement in the exports of Instant tea was noticed. The total export earnings from all the three items namely packet tea, tea bags and instant tea were at the level of Rs. 72.24 crores which was much below the level of previous year. The position of exports of these items is brought out below :-

Quantity : M. Kgs.
Value : Rs./Crs.

Years	Packet Tea		Tea Bags		Instant Tea	
	Quantity	Value	Quantity	Value	Quantity	Value
1982-83	10.10	26.32	0.61	2.32	0.82	4.53
1983-84	17.37	52.13	0.51	2.43	1.08	6.97
1984-85	21.84	93.06	0.63	3.66	1.18	10.02
1985-86	25.69	99.41	0.59	3.78	0.94	8.04
1986-87*	16.85	59.57	0.47	3.18	1.13	9.49

*Provisional

As stated earlier, the decline in export earnings from the value-added teas was mainly due to the decline in their export earning from packet tea and tea bags. Exports of packet tea during 1986-87 declined both in quantum as well as in earnings. In case of instant tea, exports both in quantum and value is being improved during 1986-87. A notable feature is that the exports of Packet Tea have improved to the countries of UAE, Saudi Arabia, ARE while export declined to the countries of Sudan, Afganistan, Iraq and Iran. There was no offtake of Indian packet tea by Libya and Syria during 1986-87.

1.17. *Domestic Consumption :*

The estimated domestic consumption of tea in India is placed at 431 m.kgs. during 1986 compared to 415 m.kgs during 1985. On the basis of annual increase of about 9 m.kgs. in the per capita consumption it is estimated that total domestic consumption of tea during 1991 could reach the level of 511 m.kgs.

1.18. *Cess and Taxes :*

The Cess @ 15 paise per kg. is collected at the point production w.e.f. 15-8-86, However, Cess on Darjeeling tea is levied at a concessional rate of 8 paise per kg.

1.19. *Excise Duty :*

Loose tea—w.e,f. 9-9-86 the tea producing areas of India has been classified into two district separate zones. The rate of excise duty for these two zones are 50 paise and 1.50 paise per kg. respectively.

Packet tea—In addition to the zonal excise duty, the excise duty 44 paise or 1.10 paise per kgs. is levied on the manufacture of packet tea.

Tea bags—There is no additional excise duty on manufacture of tea bags.

Instant tea—In addition to the zonal excise duty leviable on loose tea, the excise duty @ 11 is levied on manutacture of instant tea.

1.20. *Export Duty :*

There is no export duty on tea in India.
