INTRODUCTION

Tea statistics 1988-89 is the thirtyfifth publication in the series published by the Statistics Branch of the Tea Board. Statistical information relating to various aspects of the tea industry and trade in India as well as in world, as available at the time of going to press, have been incorporated in this issue.

Research workers, Economist, Statistician as well as individuals, institutions both in India and aboard have in the past found this publication very useful for a systematic and scientific study of various problems faced by the tea industry and trade. It is our earnest hope that the present issue of the publication will carry this objective step further and will prove itself to be more useful than its predecesors.

Some of the table have been reoriented according to the present need and I hope will be very much helpful for the users.

I am happy to place on record my heartfelt thanks to the staff members of the Statistics Branch in the preparation and publication of this issue.

REVIEW OF THE YEAR 1988 - 89

The year 1988 was a second successive year of steady growth for Indian Tea Industry and has ended on a bright note so far as production and exports are concerned. For world tea Industry, the year 1988 was also encouraging as the production of tea reached a level of 2471 M.kgs surpassing all previous records and world exports increased to 1037 M.kgs touching a new record. A comparatively higher growth rate (5.37%) in world production during 1988 compared to 1987 (2.92%)affected the tea prices at London auction —a Tea auction centre acting as a barometer of tea prices in the international market. Although tea prices at Indian auctions registered an improvement at the end of 1988, the annual average price of Indian tea at Indian auctions was lower than that of 1987. However, tea prices of other producing countries viz. Sri Lanka, Kenya, Bangladesh and Indonesia, at their domestic auctions improved during 1988. But the increase was not in consonance with the worldwide inflation.

1.1 World Production

World production of tea levelled at an all time highest peak to the tune of around 2471 million kgs. The increase in crop was mainly contributed by India,Sri Lanka, Indonesia, China and a few African countries like Kenya, Malawi etc. In fact, all the producing countries had shown improvement in quantum produced except a few number of small countries in Africa and Japan.

Kenya and other prominent African producing countries produce only CTC teas while Asian countries (excluding India) produce mainly orthodox teas. Out of the total world supply of tea, the CTC variety mainly comes partly from India and the African countries while orthodox, with almost equivalent proportion to CTC in availability, is produced by asian countries like Sri Lanka, Indonesia, China, Turkey, etc. Green teas are produced mainly by China, Indonesia, followed by Japan USSR and Vietnam of which increase in green tea production was a contribution only by China. Improvement in world tea production during 1988 gave rise to increase in availability of both CTC and orthodox teas in the world market.

1.2 World Export

World export of tea for the year 1988 recorded an increase in quantum by 6.25% as a result of increase in exports by the countries like China (14%) followed by Sri Lanka (9%) and Kenya (2%). The improvement in world exports may be viewed in relation to stability in the world supply position and the higher offtake by the importing countries against the low profile in the overall price line.

The production and export of tea from major producing countries are shown below:-

1.3 World Import

With the increase in tea imports by oil producing countries of WANA region and also by UK and North American countries, there was an overall improvemen -tin world tea imports for consumption by around 8.7% in during 1988 over last year, inspite of no improvement in imports by the countries of South America and a few West European countries and decline in imports by the countries of West Asia.

1.4 World Tea Prices

The general trend in price realisation in world auction centres reveals that while there was a slight decline in overall price in the Indian auctions, Indian teas fetched comparatively better price in London auction than the other producing countries operating in that auction, the prices fetched by the producing countries like Sri Lanka, Indonesia and Kenya were recorded to be much lower in 1988 over the last year's level although there was a lower throughput in quantum by these countries except Sri Lanka on sales at London auction.

The tea prices at all auction centres of the world during 1988 and 1987 are summarised in the table below :-

1.5 International Tea Agreement

A meeting of the inter-Governmental group appointed by FAO was held during early March,1989 to discuss erratic price movements in the international market as also adherance to ISO 3720 as the international standard by the exporting countries. Due stress was also laid on generic promotion of tea which could help to achieve better balance of the world tea market and ultimately contribute to recovery of tea prices.

INDIAN TEA ECONOMY - SALIENT FEATURES

1.6 Production

Indian tea production during 1988 reached an all time high record at 700 million kgs which is ahead of last year's by about 35 million kgs. A greater share of the upswing in crop was contributed by South India to the tuneof 28 million kgs due to favourable agro-climatic condition existing in the region.

1.7 Marketing of Crop

Indian Auction

The percentage of sales of North Indian teas through Indian auctions was higher during 1988 in comparison to pervious year. For South Indian teas, the percen -tage was higher than that of North Indian teas. The provision of Tea (Marketing) Control Order, 1984 regarding 75% sales through Indian auction was found to be approximately met during 1988.

Foreign Auctions

While the Indian auctions attracted more of Indian teas during 1988,the sales of Indian teas in London auction was considerably less than the previous year. South Indian teas drew a blank in London auction during 1988.

Ex- Garden Sales

Ex-garden sales within the country during 1988 was 23.86% as against 23.70% during previous year. The overall picture of primary marketing of Indian tea by different channels is summarised below:-

(Figs. in M.Kgs)

Year	India	London	Singapore	Total	Ex-Garden exports under forward contracts	Ex-Garden private sales

1.8 Prices of Tea

As already indicated, the annual average price at Indian auctions during 1988 remained at a slightly lower level than in 1987. In fact the price decline persisting from the beginning of the year continued upto the middle of the year when the position somewhat improved leading to an overall small decline (3.03%) in price at the end of the year. The decline in price was more in South Indian auctions than in North Indian auctions. In Coimbatore auction there was 8.07% decline in price followed by 7.37% in Cochin auction and 6.33% in Coonoor auction. The ovrall shortfall in price in North India was by 1.46%. In London auction Indian teas performed slightly better than previous year in price realisation with an increase by 2.45%. The quantum of sales and prices fetched by tea in Indian auctions during 1988 and 1987 were already indicated in para ~~1.4~~ 1.4

1.9 Exports

There was a decline in calendar,year exports of tea from India during 1988 compared to 1987. Unit export price of Indian tea however slightly declined,in line with the decline in the price level at Indian auctions.

Exports - Financial Year

During the financial year 1988-89 exports reached a level of 204.08 m.kgs

During the financial year 1988-89 exports reached a level of 204.08 m.kgs which was higher by 2.25 m.kgs as compared to the previous year's level. The exports of tea from India during the six calendar year as well as during the last six financial years are given below :

Direction of Exports

Bilateral Countries

India remained under bilateral trade agre agreement with five countries in East Europe namely USSR, Poland, Czechoslovakia, GDR and Rumania during 1988. Iraq also remained under bilateral trade agreement but the payment was in convertible currency. Indian trade with bilateral countries occupied an important position in the Indian tea export scenario which would be evident from the following table:

Exports to	1984	1985	1986	1987	1988*
A) Countries under Bilateral Trade Agreement	94 (43:32) (43.32)	114 (53.27) (53.27)	108 (53.20) (53.20)	109 (53.96) (53.96)	99 (49.25)

USSR continued to be the largest importer of India tea under the Bilatral Countries during,1988.

Other Countries

In recent years, there had been a directional change in tea exports from India from traditional markets of UK and West Europe to the countries in WANA region and also to USSR. Indian tea is also facing stiff competition from other exporting countries namely Sri Lanka, China, Indonesia, Kenya and Malawi. Due to lower cost of production, Sri Lanka and Kenya are able to export tea at a much lower price compared to Indian tea in the world market.

During the year 1988-89, there,was improvement in tea exports to U.K.,USA, UAE, Iraq, Saudi Arabia, ARE Afghanistan and Pakistan. On the other hand, exports of Indian tea substantially declined during 1988-89 to the countries like Poland and Iran. Exports also marginally declined to the countries like Canada, Netherlands, West Germany etc.

1.10 Domestic Consumption

A major share of Indian production is accounted for by internal consumption which is increaseing at an annual compound rate of 4%. The internal consumption of tea in India was estimated at 462 m.kgs during 1988 as against 446 m.kgs during 1987.

1.11 Cess and Taxes

The cess @ 15 paise per kg is collected at the point of production w.e.f 15.8.86. However, Darjeeling teas continue to enjoy a concessional rate @ 8 paise per kg.

Excise Duty

LOOSE TEA : Tea producing regions in India have been classified into two distinct zones. The rates of excise duty for these two zones are 50 paise and Rs.1.50 paise per kg.respectively.

PACKET TEA : In addition to the zonal excise duty, the excise duty @ 44 paise per kg or Rs. 1.10 per kg is levied on the manufacture of packet tea depending upon the size of the pack.

TEA BAGS : There is no additional excise duty on manufacture of tea bags.

INSTANT TEA : In addition to the zonal excise duty leviable on loose tea, the excise duty @ 11% is levied on manufacture of instant tea.

Export Duty : There is no export duty on tea in India.
